### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Response to Amendments and Arguments*

1. The applicants filed two amendments in response to the Previous Office action.

Both amendments were entered.

2. It is noted that the applicants in their Remarks attempt to blame the Office for the delay in the prosecution of the instant case.

The examiner disagrees with such interpretation of the facts:

The delay of the prosecution and the abandonment of the case were due to the applicants' mistake.

The applicants filed papers with wrong serial number and did not attempt to fix the error for almost two years after the mail date of the Notice of Abandonment (from beginning of February 2005 till end of November 2006).

It is further noted that the papers filed 10/11/07 (the papers, in which the applicants blame the Office) were **again** filed with wrong serial number.

It is not clear how the Office can be blamed for the actions of the applicant's attorney, which **repeatedly** files papers with wrong identification number.

It is not clear how the Office can be blamed for the delay when the applicants did not file any reply to the Notice of Abandonment for almost 22 months.

The examiner cordially ask the applicants to carefully check the papers they file to avoid any further delays of the prosecution.

### *Specification*

3. The applicants filed the amendment to the specification.

4. It is noted that the amendment is made with respect to the substitute Specification filed on 4/24/03. However, the referenced Substitute Specification has not been entered.

5. The substitute specification filed 4/24/03 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because: the applicants failed to file a marked-up copy as required.

***Information Disclosure Statement***

6. The information disclosure statement (IDS) submitted on 10/11/07 was considered by the examiner.

***Election/Restrictions***

7. This application contains claims directed to the following patentably distinct species of glycol ethers and species of "other" compounds (amines and alcohols). The species are independent or distinct because they are mutually exclusive.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable for each of the indicated groups. Specifically, election of a single species of glycol, election of a single species of amine compound or alcohol, and election are required. If the amine compound is elected the applicant is required to elect a single species of the amine compound. If the alcohol compound is elected, the applicant is required to elect a single specie of the alcohol compound. Currently, claim 126 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

8. Applicant is advised that the reply to this requirement to be complete **must include** (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions

unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 571-272-1304. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on 571-272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
